## Formulary Updates 2025

During the plan year, drugs may be added, updated or removed from the formulary by your plan. If the coverage of a certain medication is changed, we will notify you in advance of the change for the following reasons:

- Medication is being added or removed from our formulary
- Prior authorization, quantity limit and/or step therapy restriction is being added or removed from a medication
- Medication is being moved to a different cost-sharing tier

The table below outlines change(s) to our formulary that may impact you. Please talk to your doctor to see if the alternative drug is right for you or to change to another medication for your treatment.
